

## NAPLES PREMIER HOME AND PET CARE SERVICE

Being away from home and entrusting your residence or pets with untrained pet providers is worrisome. It's common for a friend, family, or neighbor to check on things but is this the best person to protect your home and pets? Your home and pets are unequalled financial and emotional investments – why trust them to any other pet care specialist? Boarding your pet does not always mean an exercised or leash trained pet, and with the new canine "Flu" virus that's infecting dogs it cements how much safer in-home pet care is versus kenneling.
